Stories That Inspire. Worlds That Connect. Legacies That Last.

WELCOME TO THE STORY WORLDS

ONE LIFETIME. MANY STORY WORLDS.

WHAT YOU'RE ABOUT TO SEE

is not one project. It represents a lifetime of stories told through music, film, books, documentaries, and creative experiences.

YOU ARE NOT EXPECTED

to understand everything in one sitting. Think of this presentation as a map—not the destination.

EACH STORY WORLD

is its own doorway. Start wherever your curiosity leads you. If something resonates with you... follow that story.

THE WORK WILL INTRODUCE ITSELF

from there.

LET THE WORK SPEAK.

CREATIVE FOCUS

-  Original Story World Creation
-  Songwriting & Music Production
-  Film & Documentary Development
-  Cross-Media Creative Strategy
-  Long-Term Intellectual Property Development
-  Authentic, Purpose-Driven Storytelling

Matt Goodman is the founder of Rabbi MG Studio, an independent creative studio developing original Story Worlds that expand across music, film, books, documentaries, and live experiences.

Over the past several years, Matt has developed more than **1,000 original songs**, multiple Story Worlds, films, books, documentaries, and cross-media creative properties spanning sports, faith, family, children's entertainment, and personal transformation.

His work has generated more than **7 million cumulative audience views** and over **1.5 million music streams** across digital platforms, demonstrating an ability to build meaningful audience engagement around original creative properties.

Rabbi MG Studio brings those years of creative development together into one independent studio dedicated to building original intellectual property that can expand across music, film, publishing, live experiences, and strategic partnerships.

RABBI MG STUDIO™

ORIGINAL STORY WORLDS
FOR MUSIC, FILM, BOOKS & BEYOND

WHY NOW?

THE CONVERGENCE OF STORYTELLING, TECHNOLOGY & ORIGINAL INTELLECTUAL PROPERTY

CREATIVE TECHNOLOGY HAS CHANGED EVERYTHING.

Artificial intelligence and modern creative tools have dramatically lowered the cost and time required to develop premium music, films, books, and digital media—making independent creative studios more powerful than ever before.

AUDIENCES ARE SEEKING CONNECTED STORY WORLDS.

People no longer engage with a single song or film. They follow worlds, characters, communities, and experiences that expand across multiple forms of media.

INDEPENDENT INTELLECTUAL PROPERTY IS BECOMING MORE VALUABLE.

The next generation of entertainment will be built by creators who own original ideas, develop authentic communities, and collaborate through strategic partnerships.

Rabbi MG Studio is positioned at the intersection of storytelling, technology, and original intellectual property—building Story Worlds designed to grow across music, film, books, live experiences, and strategic partnerships.

WHAT IS RABBI MG STUDIO?

MORE THAN MUSIC. STORY WORLDS
THAT EXPAND ACROSS MEDIA.

Rabbi MG Studio develops original intellectual property through **interconnected Story Worlds**.

Every Story World begins with one compelling idea and grows into an **expandable creative ecosystem** spanning music, films, books, documentaries, live experiences, licensing, digital media, and custom storytelling.

Rather than creating standalone projects, Rabbi MG Studio **builds Story Worlds** that **expand across multiple formats** while creating lasting emotional connections with audiences.

The goal is simple:
create stories people can return to again and again.
